TERRIFIC FLOW OF GAS AT VIKING GREAT THING FOR CITY

German Guns Superior and Ships of Later Build, So British Were Ineffective

Details Cannot be Relied on Until Official Report Comes from London—To Interest of Teutons to Minimize Own Losses and Magnify Those of Enemy—Furious Hurricane Blew, Making it Impossible to Lower Boats, with Consequent Great Loss of Life—Two Boats Left May Be Dismissed Unless Strong Anglo-Japanese Fleet Comes with Assistance.

Valparaiso, Chile, Nov. 4.—The victory of the German fleet under Admiral Von Speer, consisting of the armored cruisers, Scharnhorst and Gneisenau, and the light cruisers, Nürnberg, Leipzig and Bremen, over the British squadron, made up of the cruisers, HMS Devonport, HMS Glasgow, and the transport, HMS Otranto, commanded by Rear Admiral Cradock, continues the reputation of the hour here.

That the Germans were able to sink or scatter the British squadron with only minor damage to their own ships and a casualty list of only two wounded, is a subject of wonder.

The month is known to have been lost with practically all of her crew, as a result of this first big naval fight of the war. The good hope was, severely damaged and on fire, when she escaped under cover of darkness and it is believed here that she went to the bottom, with the transport, HMS Otranto, took refuge in a Chilean port.

The Scharnhorst, Gneisenau and Nürnberg were still in the harbor early today, coaling and provisioning, in preparation for standing away later in the day. It is supposed they will relieve the cruisers Leipzig and Bremen which have the Otranto and Glasgow bottled up in the port of Valparaiso, eight miles northwest of Concepcion. It would seem like madness for these British ships to leave this haven of refuge and it is likely that they will be dismantled and interned under a superior British and Japanese fleet should make its appearance and go to their relief.

Admiral Von Speer in his official report of the battle which took place late

Sunday afternoon off the Chilean island of St. Maria, says the action lasted only an hour, being discontinued at night fall, when the British were forced to give way.

"The good hope," he says, "was then so badly damaged that she was unable to resist and could only make her escape protected by the darkness."

The month, under identical conditions, tried to escape but was followed by a small cruiser, and was sunk with a few shots. Owing to the hurricane that was blowing no boats could be lowered and consequently there was a terrible loss of life."

The German admiral, in noting the escape of the Glasgow and the Otranto, says it was due to their speed and the darkness. Details of the fight, however, are not given, and it is believed that German officers who came aboard from the warships, show that the Germans, owing to the superiority in the range of the guns, on the armored cruisers Scharnhorst and Gneisenau opened fire when six miles away. The ships closed and range came down to four miles. The British ships were able to reply, but by that time they were already seriously damaged. The Germans declare that the British fought heroically but that their artillery was ineffective against the superior weight of metal that the Germans were able to pour from the more modern guns of the armored cruisers. It is said, however, that the light German cruiser pluckily closed in on the British and opened fire, but, one of them, it appears from the official

HUGE FLOW OF GAS STRUCK AT VIKING EARLY WEDNESDAY

Industrial Association Elated Over Success—Gas in Commercial Quantities.

ROAR HEARD FOR MILES: TOO STRONG TO BE CAPPED

Martin Says Bigger Flow Than Best Wells at Medicine Hat—Viking Excited.

Viking, 230 p.m.

To W. A. Milne, Secretary Industrial Association, your determination to get gas for your city. The well is 2340 ft. and is making 9350,000 cubic feet per day. This well is only exceeded by the well at Bow Island. Owing to its capacity will not be able to shut it in until a special heavy machinery arrives from our plant.

W. R. MARTIN, Pres. International Supply Co.

With buoyant spirit and wearing the smile that won't come off, W. A. Milne, secretary of the Edmonton industrial association, and other members of that public-spirited body, gathered about their work in the morning hours of the day.

At 8 a.m. Wednesday the general secretary was hailed out of bed to hear the best news that has reached his ears in many a long day. Gas had been struck at the Viking well. Yes, real gas, and a tremendous flow.

The above telegram from Mr. Martin at Viking, giving the approximate flow of the well, was almost startling in its facts, when it is known that the Viking well is one of the very largest in the world and exceeded only by one other in the world. It has also been carefully figured that this one well will be supplying sufficient gas to furnish half of the light, heat and power required by the city of Edmonton today and that it would take but a few wells to supply the city with all its gas needs. This is worthy of note in view of the fact that at Bow Island, it requires no less than 17 wells to supply the city of Calgary with their light, heat and power.

The strike was made in the early morning hours, for the big staff of drillers have been working night and day in their last hole, driving into the bowels of the earth for the valuable field that they knew was there. Secretary Milne, in speaking to W. R. Martin, the drilling contractor, over the long distance phone at 11:30 in the morning, gave the following facts concerning the strike:

The depth of the well was 2340 feet. The flow of gas was so strong that it could not be capped, which means a tremendous flow. The roar from the well was heard for two miles, and people standing at all near the well were shouting in another's ear. A long plume, twelve inches wide and two inches thick, was being blown into the air, and a piece of steel four inches square broken from the drill at the bottom of the well, was blown into the air, and a million splinters, so great and powerful was the flow. The upper rim of the pipe was blown high into the air, and a piece of steel four inches square broken from the drill at the bottom of the well, was blown into the air, and a million splinters, so great and powerful was the flow. The upper rim of the pipe was blown high into the air, and a piece of steel four inches square broken from the drill at the bottom of the well, was blown into the air, and a million splinters, so great and powerful was the flow.

THE UNDAUNTED AND HER DAUNTLESS CAPTAIN.

This is the fast off-burning cruiser Undaunted, which sank the four German destroyers off the Dutch coast. She is one of the newest and fastest vessels in the navy. With her speed and her quick action reputation she undoubtedly will be heard from again ere long. Inset is Captain Cecil H. Seymour, captain of the Undaunted, which vessel is also the flagship of Admiral Seymour.

WEALTH OF NORTH IS INDESCRIBABLE SAYS JOURNALIST

On Return From McMurray W. F. Coleman Praises New Pictures of Riches.

CLIMATE ALSO COMES IN FOR GOOD WORDS

Untold Eldorado But Wait "The Day" When Great Waterways is Finished.

Alberta may look forward to a great deal of subterranean industry as a result of the trip just made into the Athabasca country by the party of newspaper men and photographers which left here about six weeks ago and arrived back last evening.

In the party were W. F. Coleman, northwest manager of the Illustrated Editor magazine of the west, the "Sun" of San Francisco; Gardner Richardson, of the Independent, a weekly newspaper of New York; and a well-known local broker and enthusiast of the north, J. W. Well, of the Alberta Real Estate company. A. J. Aylesworth, the moving picture and theatrical manager, and Fred Rogers, moving picture operator.

They have brought back to the city a veritable wealth of information as to the magnificent resources of the north country, which, like Germany, awaits "the day" when a steel band stretches from Edmonton to Fort McMurray, so that people may see and mine, and other resources may come. The day they are soon to be a fact as the Alberta Great Waterways railway, that much-talked-of dream of statesmen and engineers, is being pushed forward, under the guiding hand of the aggressive J. D. McMurtry, who knows not of financial depression, in a way scarcely thought possible a few months ago. Steel will be laid at Lac la Poudre this fall and McMurtry by the next.

The party went north by motor boat from Athabasca by the great river of that name, and it was a pleasure, as the erstwhile adventurers, as well as an eye-witness of what Alberta is, to make the trip.

Fort McMurray, besides having a unique location and all the ear-marks

REPUBLICANS GAIN BUT DEMOCRATS IN CONTROL IN U. S. A.

Evening Government Suddens of Wilson Elected to Ten Opposition.

SEVEN ARE DOUBTFUL: JOHNSON IN CALIFORNIA

Democratic Leaders Hope to Still Retain Control Both Houses.

New York, Nov. 4.—Incomplete returns from the state where gubernatorial elections were held yesterday show that 11 democrats and 10 republicans had been elected and that in seven states the result was apparently undetermined. In these seven states the republican candidates were leading. Of these 23 states, 16 at the present time have democratic governors, 11 republican governors and two progressive governors were elected in Connecticut, Vermont and Wisconsin.

States electing democratic governors were: Alabama, Arizona, Georgia, Massachusetts, Minnesota, Michigan, Nebraska, Oklahoma, South Carolina, Tennessee and Texas. Republican governors were elected in Connecticut, Iowa, New England, North Dakota, Ohio, Pennsylvania, Rhode Island, Vermont and Wisconsin.

In Colorado, Kansas, Nevada, Oregon, and South Dakota the republican candidates were leading in early returns. In Idaho the democratic candidate was leading and in Wyoming the democratic and progressive candidates were tied.

New Hampshire, Connecticut, Colorado and Ohio elected republicans to succeed democrats, while Minnesota and Tennessee chose democrats to succeed republicans.

Close in Illinois.

Chicago, Nov. 4.—Complete figures on the senatorial election for Chicago, officially gave Roger Sullivan, democrat, a plurality of 39,018 over Senator Lawrence V. Sherman. Unofficial returns from Cook county, outside Chicago, showed Sullivan's lead in the county to be 15,000. Half the precincts outside Chicago gave Sherman a plurality of 15,318, leaving a net of fewer than 20,000 votes to gain in the remaining half of the down state precincts to be elected.

Britain Now Prepared For Any Further German Raids; Land Forces Make Progress

In Event of Remote Contingency of Teutons Landing on East Coast, Defence Are Rushed There—From Coast to Lille Kaiser Has Half Million Men—Allies are at War With Turkey, Diplomatic Arrangements or Not—General Moratorium Expires.

London, Nov. 4.—The German naval raid, from the stronghold of Kiel, to within 12 miles of the English east coast, and the possibility of a recurrence of such performances any day or night, held the foreground in London's war news today. Its spectacular features created more discussion than that of the forced retirement of the tip of the German right wing in Belgium. Four battleships and four cruisers is the latest estimate of the units which participated in the North Sea episode, but no accurate information on the subject is available.

It is assumed, however, that all preparations have been made by the British admiralty to meet any further raid. As it was troops at Yarmouth with rifles and ball cartridges were stationed along the roads leading from the shores to the town, ready for the remote contingency of any Germans setting foot on English soil.

Though the battle of the sand dunes may be over, it is not correct to say that the German forces have been driven from the Belgian coast. They still hold Ostend and they are landing large forces in the vicinity of Ypres, and the opinion of military observers is a possibility that a renewed German struggle to break through the allied lines will be attempted.

From the coast to Lille a comparative short battle line, the Germans have eleven army corps, roughly half a million men.

The English papers point out today that this situation still is undecided, and that it should not be assumed that the Germans have yet been decisively beaten in Belgium.

That the allies have been throwing fresh forces into Belgium in aid of the British, is official news. From the British front, which speaks of both forces from home and Indian troops in that area of hostility and adds:

"Reinforcements of every description have been sent to meet the threatened attack."

This, of course, refers to attacks along the Yser, which have now come to an end, with the result against the invaders. But looking ahead, the same condition will apply generally to the operations south of Ypres.

The mystery of the diplomatic situation in Turkey remains undecided, but, solved or not, Turkey and the allies are now at war, in spite of the fact that the Turkish ambassadors at London and Moscow have refused their posts.

The agitation for more recruits in England has been renewed. The general moratorium established for the relief of doctors in the matter of liability contracted before August 4, expired today, after being in force for three months.

EVERY INDICATION THAT GERMAN RETIRE ALONG FROM BRUGES TO THIELT

London, Nov. 4.—"The sound of cannon has been distinctly heard at Ghent," says the Telegraph's American correspondent of the Central News, "and there is every indication that the Germans are retreating in the whole front from Bruges to Thielt, 15 miles southeast of Bruges."

AUSTRIA IS READY TO QUIT: ARMY IS NO LONGER USEFUL

In Spite of Germany's Threats and Promises Dual Monarchy Seeks Peace.

ANY ARRANGEMENT WILL INCLUDE SERVA STATED

Vienna May be Compelled to Capitulate Ignominiously or Submit to Berlin.

Petrograd, Nov. 4.—A special correspondent writes that in spite of Germany's threats, promises and furious disgust, Austria, the Russian government is informed, would only too gladly retire from the war if she could make terms with Russian direct, with the approval of Great Britain and France.

The Russian government is in communication on the subject with London and Paris and important developments may shortly be expected. Berlin is asserting the strongest influence at Vienna, but, as a fighting force, the Austro-Hungarian army has practically ceased to exist. Ravages of disease have contributed even more than the Russian army to bring about a desperate state of affairs in the Austro-Hungarian army. Any arrangement Vienna makes with Petrograd would, of course, include Serbia. It is a question whether Austria-Hungary will be compelled to capitulate ignominiously if terms of peace cannot promptly be arranged. The only alternative would appear to be regular submission to Berlin. In that event it is doubtful whether German aid could longer defer the occupation of Vienna by the Russian army.

JAPANESE DESTROY 26 GUNS AND CAPTURE 80 PRISONERS AT TSING TAU

Tokyo, Japan, Nov. 4.—A dispatch received here from Tsing Tau in Shantung province before Tsing Tau, the fortified position of the German territory of Kiau Chau, have destroyed 26 German guns and captured 80 prisoners. The Japanese are now attacking the German trenches and the wire entanglements before them.

Rebekah to Meet

Jewel Rebekah Lodge, No. 25, will hold its regular meeting Thursday evening at 8 o'clock. The lodge is located at 11th E. O. F. Hall, Northwest boulevard, at 8 o'clock. There will be degree practice at the close.

Mexican Masons Call on Countymen Drive Americans From Vera Cruz

Mexico City, Nov. 4.—When it became known today that the Washington government had failed to comply with the request of the Mexican foreign office that United States fix a definite date for the evacuation of Vera Cruz, Mexican Scottish Rite Masons printed thousands of proclamations calling on all citizens to arm themselves and drive the invading foreigners from the shores of Mexico. Jose Cardoso de Oliveira, Brazilian minister in Mexico, yesterday handed to the Mexican minister of foreign affairs the Washington reply to Mexico's communication asking Washington to fix a definite date for the evacuation. The note, while disavowing any intention on the part of the American government to occupy Vera Cruz longer than necessary, was firm in the attitude that the central government of Mexico must make certain guarantees.

BIG NAVAL BATTLE MAY NOW BE GOING ON IN NORTH SEA

Following Tuesday's Skirmish Reports are Rife as to Heavier Engagements

FIGHT WAS VERY CLOSE TO BEACH AT YARMOUTH

London, Nov. 4.—Reports are current in well informed circles of a naval battle in the North sea, but with what result is yet unknown. The German fleet is said to have come out with the object of making an attack before the process of mine laying, which the British planned to have completed Thursday, should restrict the German naval offensive.

Copenhagen, Nov. 4. (via London).—A fleet of German warships has gathered off the Aland Islands in the Baltic sea, north east of Stockholm and opposite the entrance to the gulf of Finland. They evidently were proceeding north and have stopped to await orders.

London, Nov. 4.—Telegraphing from

Militia Department Takes Steps To Suppress Pro-German Papers

Ottawa, Nov. 4.—If the western German papers, which have been publishing pro-German articles and articles with a seditious tinge, confine this policy they will be suppressed by the government. The militia authorities at Winnipeg, Regina, Calgary and Edmonton have been given instructions to notify any papers in their district that the publication of any articles intended to incite feeling against Great Britain will be followed by suppression. There has been considerable complaint as to the nature of the matter in several papers, and it was claimed it was tending to keep the Germans and Austrians in a state of unrest. The government hesitated about taking such summary action until it was seen to be imperative.

THE NATIONAL SAFETY-VALVE
IN FREEDOM OF SPEECH

Prussian diplomats reported to their home government that in case of war Ireland would rebel, that South Africa would rise as one man, that India was teetering with sedition, that even Canada and Australia awaited only the opportunity to declare their independence.

This egregious blunder is understandable only through a consideration of the limitations of the Prussian conception. To the Prussian military mind the mental lock-step has become an affliction. There must be no two opinions upon matters of great national importance. Such a thing as safety arising from absolute freedom of speech does not come within the range of the militarist conception. Politicians with appeals to prejudice running amuck, soap box orators spilling their wild-eyed doctrine of discontent from every street corner, Carson's "rebels" posing for the moving-picture man, all look to the Prussian—with his belief in the necessity for absolute orderliness of thought—like the surface manifestations of the most violent spirit of heresy, privy conspiracy and rebellion. To the Prussian mind a mob of frenzied electors howling their endorsement of some particularly vehement attack upon the government of the day must presage an imminent dissolution of the country which is so lacking in sameness of thought.

But to the Anglo-Saxon who has become used to this sort of thing and whose mind is attuned to catch the national rhythm which arises from just such discordances of opinion, the incidents are set down in their proper place, as public opinion in the flux; the untrammelled expression of the free and independent who will presently give such force to their opinions as may make a difference of maybe three votes in the national assembly. "It takes all kinds of people to make a world," the plegmatic Briton is likely to say as he journeys serenely to the polls to vote contrarily to whatever demonstration do not meet his views and thus neutralizes to that extent the projects of the extremists; who, in the meantime, have had their opportunity to exhaust the vocabulary and their own vehemence against institutions which another section of the community unperturbably endorse.

What the Prussian diplomats took to be the rumbling preliminary to an explosion which would blow the empire to pieces was merely the safety valve performing its proper functions. The engine of state was going ahead full steam, making more rapid progress than ever before. In fact, the only safe country is the country in which every man has the scope and the privilege to say what the spirit moves him to say in criticism of the most cherished institutions, thereby getting it off his system and at the same time doing his share to prevent the nation becoming overburdened with pride.

THE CENSORSHIP:
WHAT FOR?

The efficiency of the German spy system is commencing to make the censorship look as foolish as it was due to do when the thing became fully appreciated. A British destroyer sets out for the Belgian coast. The censor deletes all mention of the activity. But the Germans know of her sailing long before she reaches her destination and are prepared for the emergency. The only persons in the dark are the British public. Battles are fought in Flanders. The censor holds the story for days, then draws his pencil through the name of the town in which the engagement took place and reduces all details to a shadow. The Germans who escaped death must have known they were in a battle and must have gathered a most complete estimate of the consequences. Having been there they could not have been ignorant of where it took place. But the British are not allowed to know.

Thus news that would be of intense interest to Canadians is withheld, to no apparent advantage to British arms, but to the greatly-increased anxiety of those in this country who would like to have a more definite story of the progress of the war.

GERMANY'S UNCERTAINTY AS TO
WHOSE IS THE BLAME.

There is this difference between the allies' claims and those of the Germans as to who is responsible for the war, that while the allies have unanimously and consistently declared that the responsibility rests with the German bureaucracy, with the kaiser at the head, the Germans have shifted from first blaming the Russians for inciting the Servians to next blaming France for rushing into an unprovoked war and to now blaming Britain for having incited the war in order to wipe out a competitor in world commerce. Japan and Belgium are still left as reserves upon which the Germans may later attach the blame.

The certainty of the allies as to who is responsible and the uncertainty of the Germans is its own commentary.

WHERE THE RESPONSIBILITY
FOR CENSORSHIP RESTS

Under an Ottawa date line appears a wire in today's dispatches which makes it plain where the responsibility stands with relation to the German Herald, the subject of such acrimonious controversy in the closing hours of the recent session. The military authorities, so the dispatch says, have notified military officials in Edmonton and other western cities for seditious matter and to suppress any publications which infringe what the military department considers dangerous.

The Journal and the members on the conservative side will now no doubt make their due amends to the Sifton government.

Always Keep Them
In The House

That's what Mr. H. J. Eastwood, of Carleton Place, Ont., says about Gin Pills.

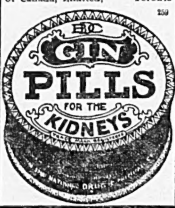

"I have taken Gin Pills and feel them good for pain in the joints, swollen hands and bladder trouble. We always keep them in the house."

Gin Pills

FOR THE KIDNEYS

If you are feeling faulty, perhaps it is your Kidneys or Bladder that is causing the trouble. If there is pain over the bladder—if the urine is hot and scalding—too free or scanty—if the urine shows brick dust deposits or mucus—if there is constant pain in the back—restless sleep and loss of appetite—then you certainly need Gin Pills. Get them today and feel better tomorrow.

Gin Pills are sold by all dealers at 50¢ a box, 9 boxes for \$2.50. Free trial treatment if you write National Drug and Chemical Co. of Canada, Limited, Toronto.

CORRESPONDENCE

The publishers of the Edmonton Capital feel it necessary to explain that they take no responsibility for the views in letters sent to the editor. Letters will not be printed unless name and address are given for publication.

FROZEN WATER PIPES.

To the Editor of the Capital:

As winter is again approaching, I should like, through the medium of your newspaper, to call the attention of water consumers to the fact that much annoyance to themselves and expense for plumbers' bills can be avoided by a few minutes' labor spent in wrapping both hot and cold water pipes in the basement. Even in houses where there is a furnace or other heating apparatus in the basement, there is still the possibility of frozen pipes, as a slight draught from a door or window may very quickly freeze up a water pipe so exposed. Wrapping the pipes with felt, or, where this is not available, with a first covering of paper and then with a layer of old woolen material etc., tying same on with string is all that is necessary to prevent the above annoyance and expense.

As the waterworks department is not responsible for frozen pipes on private property, and the thawing out with electricity entails considerable time and expense, I would strongly recommend water consumers to give notice their immediate attention before the severe weather sets in.

Yours very truly,
 J. W. TURNER,
 Supt. of Waterworks,
 Edmonton, Nov. 4, 1914.

WEDNESDAY NIGHT

At 8 p. m. November 4th At 8 p. m.

Under the Auspices of the Elective Commission
 Government Charter Committee

The New City Charter eliminates the City Council, elects Commissioners, gives every bona fide resident British subject a vote, and places the Initiative, the Referendum and the Recall in the hands of the people.

The New Home Rule City Charter
for Edmonton

Will be presented and all features fully discussed and explained.

A time will be set apart for free discussion, and for the asking and answering of all questions

AT A

PUBLIC MEETING

Which you are most cordially invited to attend. This meeting will be both interesting and entertaining.

You Will Vote on this New City Charter on December 14

This meeting is held for the purpose of giving sober and intelligent consideration and study to the New City Charter, and to Elective Commission Government in all phases of the subject, and to hold a meeting for ventilating personal grievances, political animosities, or for attacking or defending any individual or any administration whether of this year, last year or any other year. A most interesting discussion is promised and the ladies are especially invited.

AT THE

Victoria High School

New Hudson Bay Reserve

OTHER MEETINGS WILL BE HELD

Thursday Night, November 5th—Riverdale school and Donald Ross school.

Friday Night—Norwood Boulevard school.

NAMES OF APPLES

(By Peter McArthur.)

Who names the apples anyway? Is there an official register for apples? I must write to the fruit branch and find out. Also I want to know if it would be possible to have the name of an apple changed. You may not know it, but as much care should be exercised in naming a new apple as in naming a girl baby. You couldn't expect a girl to have lovers or to figure among those present at court functions if she had such a name as Lohelia McSwatt or Vaseline Summerax. And it is just the same with apples. Some excellent varieties have been badly named and our fastidious apple lovers will have nothing to do with them. Take the Pewaukee for instance. The name is juicy with vowels and is doubtless melodious and euphonic, but it sounds very much as if it were a name for a man who could get familiar with. There is a certain Indian address and tactfulness about it. I don't tell anything. Whenever I write the name I long to cross it with Frezzy (see the war news) and try to make two decent names out of the combination.

To add to the difficulty someone has given the Pewaukee a black eye in the apple trade—though why I cannot imagine. When I took charge of the orchard I am now caring for, I was told that the Pewaweeks went to the pipes every year because there was no market for them. But when the experts of the department of agriculture came to instruct me about attending to the orchard, they said the Pewaukee was a much better apple than most people supposed, so we attended to the trees as carefully as to the others. When harvesting time came, I tried a Pewaukee that looked tempting and was amazed to find it an excellent eating apple. We had already tried it for cooking and had found it one of the very best. The flesh is firm and crisp, remarkably white, and every bite is full of full-flavored juice. Perhaps our land conditions are especially favorable for this apple, but I am sure there is no better dual purpose apple on the place. It is equally good for eating and cooking. If we have to put in our No. 1 Pewaweeks at No. 2 because there is no demand for them in the trade.

To shipping a carload of apples to Edmonton two years ago I ventured to put in forty barrels of Pewaweeks. I find them very doubtful of the wisdom of doing this because no one had heard of them except the dealers, and they said they were no good. As matters turned out, those despised Pewaweeks proved about the most popular apples in the shipment. They kept through the winter until March, and on the last day of the year they all had the same refrain, "Oh, for one of those juicy Pewaweeks."

To have such a long history of the Pewaukee in the Ontario Fruit Book I found that it is a cross between the Northern Spy and Duchess of Oldenburg. With such a parentage it could hardly help being a good apple. Those that grow on my trees certainly have inherited many of the good qualities of the Spy and the Duchess and have a few of their own. Now, if I knew how to go about it, I would have the name of the Pewaukee changed. I would call it the Duchess Spy. Then the children of the rich would cry for it. I had to give the case of the Pewaukee is not unique. There are a lot of good apples that appear to be suffering from unfortunate names, and in later articles I shall tell you about them. Now let me tell you something. The children do not ask the name of an

A Sixty Year Standby

For sixty years Dr. Price's Cream Baking Powder has been the standby of countless housekeepers who have relied upon it for healthful, home-baked food.

Dr. Price's contains no alum or lime phosphate. There is never any question about the absolute purity and healthfulness of the food it raises.

It has stood the test of time. That is why the best informed housewives will use no other.

Dr. PRICE'S
CREAM
BAKING POWDER

Made from Cream of Tartar No Alum

apple. All they want is a chance to get at them. Then why not let them have them? The country is full of apple-hungry children and not an apple, whatever its name may be, should be allowed to waste. Save them all and "roll them to the kiddies."

If D. Palethorpe, dead in Philadelphia, willed \$100,000 as an endowment to provide for care of cemetery lot. Kin contesting.

JINGOIZING BUSINESS.

Confidence in the made-in-Canada campaign might well afford now and then to break forth into jingoism. An old song went the round of the London music halls in 1874 when England and Russia were on the verge of war over the Turkish question. There was a large war party in England composed of both Tories and Liberals and a war post made a song of which one verse has become famous:

"We don't want to fight, but by Jingo, if we do,

We've got the ships, we've got the men, we've got the money too."

There is an industrial war party in Canada just now, and it consists of Canadian citizens from both political parties, but without reference to parties whatever. This made-in-Canada party is national. Recognizing that in an industrial crisis this country has everything necessary to grapple with

conditions, it may be pardoned for inflicting this commercial parody on the old Jingo song:

"We know how to fight, and by Jingo, when we do, we've got the power, we've got the men, the raw material, too."

Sour Stomach

How depends your riding habit in the sky and your shirt in the mud in the mud. They fight because they cannot get at all. They fight because they cannot get at all. They fight because they cannot get at all.

CHIEF OF POLICE
TO HAVE CONTRACT

Council Gives By-Law Second Reading—Clarke Rakes Department at Length.

When the recommendation of Commissioner Kinney was read in the Council Tuesday night, to the effect that Chief of Police George Hill should be tendered a three year contract at \$10,000 per annum, the council members who voted in favor of the recommendation were: Aldermen Clarke, Kinney, and Kinney. The recommendation was made by the council members who voted in favor of the recommendation were: Aldermen Clarke, Kinney, and Kinney. The recommendation was made by the council members who voted in favor of the recommendation were: Aldermen Clarke, Kinney, and Kinney.

German Governor Wounded.
 Tientsin, Nov. 4.—A special dispatch received here from Tientsin capital of the province of Shantung, China, says that Meyer Walding, the German governor of Kiaochow, has been wounded in the fighting in the vicinity of Tientsin, between the German and the British and Japanese forces.

Winning on Strike.
 Winnipeg, Nov. 4.—The plasterers on the new drill hall went out on strike today. They say that laborers are being employed on the job, and are striking on this account. Three dozen men are on strike.

21st is Mobilizing.
 Kingston, Nov. 4.—The 21st battalion for overseas service is now mobilizing here. One thousand and five officers and men have arrived, which is just 25 short of full strength.

Mr. J. L. Campbell, of Shelbyville, Ill., alarmed by a mouse the other day, fell and broke his leg.

SHORTEST ROUTE
ROUND THE WORLD
IS VIA EDMONTON

Grand Trunk Pacific Now Giving Prince Rupert Direct Connections.

Residents of the busy city of Prince Rupert are enjoying for the first time the benefits of a direct mail service with the coast. Postal service over the Grand Trunk Pacific Railway between Edmonton and Prince Rupert has just been inaugurated and a great saving of time is being effected. Hitherto the mails have been taken from Prince Rupert and other coast points to Vancouver by steamship and then sent by rail. Under the new arrangement of direct service over the G.T.P. there will be a clear saving of two, and possibly three days' time. A letter placed in Montreal or New York should be in Prince Rupert within five days. Via Montreal it would have taken at the very least seven days.

Prince Rupert is destined to be an important port around the world, for any ship that has for its ultimate object the westward coasting of the globe must touch at this city and Edmonton on its right of way. The distance from Liverpool to Yokohama by this route is 10,000 miles as against 16,000 via New York and San Francisco. Moreover, ships sailing from Prince Rupert, touch at a few strokes from the landlocked harbor to the high seas, and both their journey across the Pacific and their return to the coast take a wide berth by sailing at the same time from any other Pacific port.

MOTHER! GIVE CROSS, SICK CHILD
ONLY "CALIFORNIA SYRUP OF FIGS."

If peevish, feverish, tongue coated, give "fruit laxative" at once.

No matter what ails your child a laxative should be the first treatment given. Look at the tongue, mother! If coated it is a sure sign your "little one" needs a thorough cleansing at once. When cross, peevish, listless, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs" and in just a few hours all complaint will be gone.

Pain Flies from Hamlin's WIZARD OIL

A friend to the household and a foe to pain for over 60 years. For rheumatism, sprains, burns, neuralgia, cramps, stomach and bowel troubles, there is nothing so good as Hamlin's Wizard Oil. It has yet been able to be so referred to by the police investigation where the police and others had tried to make the case but had failed. It even threatened to get up on the public platform and tell what he did know about the chief and others connected with him. He referred to the method of clearing evidence in police court cases and stated that half the evidence was fixed and framed up, etc. He called it a dirty deal and the act of a discredited commissioner. This last remark brought several aldermen to their feet in protest. The commissioner referred to was not dissatisfied. And at last when the vote was put, to have the chief of police put on a contract for 18 months, Aldermen Clarke and Kinney voted against it. Aldermen Kinney wanted to have the superintendent of the power house on a contract and intimated that if he did not get the chief of police on a contract, he would resign. This brought from Aldermen Clarke that he would resign. This brought from Aldermen Clarke that he would resign.

FIVE MINUTES
NO SICK STOMACH,
INDIGESTION, GAS

"Pape's Diapiesin" is the quickest and surest Stomach Relief.

If your stomach is just ailing, your stomach or lies like a lump of lead, refusing to digest, or you belch every minute, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these five-cent boxes of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless, lastest, healthy, though each dose will digest and prepare for assimilation into the blood all the food you eat; hence, it makes you go to the table with a healthy appetite; but what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparative. It is the only one that relieves indigestion, gas, heartburn, sourness, dyspepsia, or any stomach misery. Get some now. This minute, and try yourself of stomach misery and indigestion in five minutes.

THURSDAY THE DAY FOR EVERY WOMAN
Who Desires a Charming Coat at \$10

If you haven't purchased your fall or winter coat, we would like to have you inspect these stylish affairs which feature Balmacaan and Raglan sleeves, some have capes, others are of belted fashion and each one is trimmed with large fur buttons. They should sell in the regular way up to \$20.00, but a special purchase was made from a manufacturer who was overstocked and gladly accepted our offer which was far below actual value; see them **\$10.00**

Billiard Room Keepers
Should Favor the Elimination of the "Saloon?"

(By Richardson Young)
 What effect will prohibition have on the billiard room? That is the question for Mr. Roomkeeper's consideration. The billiard room is a place where the saloon men go to get a customer, the billiard man gets one. The logic is true in a sense, but it must be remembered that in most instances of kind there is a great deal of money to be made. The billiard room is a place where the saloon men go to get a customer, the billiard man gets one.

British Drop Bombs
 London, Nov. 4.—A despatch from Rotterdam to the Daily Mail, dated Tuesday night, says:

"This morning British aeroplanes dropped bombs on the canal railway works at Bruges, Belgium, doing great damage. It was reported that another British aeroplane dropped bombs on Bruges."

Another Cattle Quarantine
 Washington, Nov. 4.—A cattle quarantine against shipment of cattle out of New York state and Maryland was imposed today by the department of agriculture due to the discovery of the foot and mouth disease in the Buffalo stock yards and in Hagerstown, Md. Feet and mouth disease among 516 Friesian in the Chicago stock yards was reported to the department of agriculture. The more cows with the disease were found in the National Dairy show there. One heifer was found infected in Maryland and half a dozen heifers were reported in the Buffalo yards.

Death is one initiation ceremony everybody has to go through.

may take to keep him in line. The billiard man may have no personal interest in the saloon, but a financial standpoint, he may be a temptance advocate or a tectator as a great many of the saloon men are.

The billiard man may have no personal interest in the saloon, but a financial standpoint, he may be a temptance advocate or a tectator as a great many of the saloon men are. The billiard man may have no personal interest in the saloon, but a financial standpoint, he may be a temptance advocate or a tectator as a great many of the saloon men are.

KID SCALER WILL RETURN TO RING; BOUTS ARRANGED

Edmonton's Well-known Light Weight Goes East Monday—To Meet Baldwin.

Louis (Kid) Scaler, the well-known pugilistic expert of Edmonton has decided after carefully weighing everything in his mind, to return to the ring. He has received offers which have the right ring to them and will leave Monday for Boston, where Billy Hamilton, sporting editor of the Boston Herald, has arranged some bouts in which Scaler will figure prominently. The first will be a two-round affair at the Atlas Athletic club, Boston, and Scaler's opponent will be Matty Baldwin, the well-known lightweight, who

Think It Over—A Smoke

There's nothing as soothing and as satisfying as a good cigar or pipe. In these days of stress and worry a quiet smoke will ease the troubled mind. For quietude, reflection and complacency of spirit a smoke is the thing. But be sure it's a good smoke. There'll be no doubt of it if you buy it at McNeill's cigar stands or stores.

PORTLAND IS PREPARING FOR FIRST HOCKEY YEAR: SIGNING STRONG PLAYERS

Portland, Ore., Nov. 4.—The majority of the hockey players, which will represent this city in the Pacific coast hockey league against the star aggregations from Vancouver and Victoria, have already been signed. "Moore" Johnson will get \$1,000 for the season; Outman, \$800; Hochen, \$550; Throppe, \$500; Robin and Ben McDonald, \$400. Bonuses of \$50 and \$100 will be given certain of the players if Portland wins the championship. All but Throppe and Harris have already signed. Leseur, the crack Ottawa player, is said to want \$2,000, but unless he can be secured for \$1,200 he will not be signed. Mitchell, the man slated for the utility berth, is asking \$600, but it is possible that Irvin, who played with the Winnipeg Monarchs, may take his place. The Portland people paid \$3,000 for the New Westminster franchise.

made a good showing against Freddie Welsh two weeks ago in Dean Town. Louis will also be matched with Gilbert Gallant, who has improved vastly since he was defeated some years ago by Scaler at Manchester, N.H., and Pittsfield. There is a good demand in the eastern states for lightweights and the Kid has been assured of some good bouts by Manager Hamilton. This is not new territory for Scaler, as nearly half of the bouts in his record were fought in the east.

Though Louis has not engaged in any active training since May 24, 1912, when he boxed the present world's champion, Freddie Welsh, in the old Tiltie rink, he is not of a build that takes on weight rapidly, and today he weighs 136. A few days on the road and he would be back to his proper fighting weight, 125 pounds.

Since coming to Edmonton several years ago, Kid Scaler has appeared in a number of bouts, and has always given the public a run for his money. Among the men he boxed here under the auspices of the Edmonton Athletic club were Jimmy Potts, Paul Brown, Fighting Dick Hynd and Freddie Welsh, and the world's lightweight champion was the only one to get a decision over the Edmonton fighter. Young Cole, a promising featherweight who formerly made Edmonton his headquarters, is now in Peoria, Ill., and writes that he has engaged in two bouts, winning both by the knockout. He will accompany Scaler upon his invasion of the east.

Louis does not intend to remain in Boston permanently, but expects to eat his next Christmas dinner in Edmonton.

HIGH SCHOOLS OF PROVINCE HAVE A DEBATING LEAGUE

Schedule is Drawn Up By Extension Department of Alberta University

Provincial High School Debating League Schedule. The schedule for the High School Debating league, organized by the department of extension of the university of Alberta, has been drawn up and provides for 23 schools to take part in the contest. The subject for the first debate will be "Consolidation of Rural Schools," and the dates are as follows:

Preliminary District No. 1, including Medicine Hat, Lethbridge and Macleod. Friday, December 11, 1914.—1, Medicine Hat vs. Lethbridge.

District No. 2, including Claresholm high school, Claresholm Agricultural high school, High River and Okotoks. Friday, December 11, 1914.—1, Claresholm A.H.S. vs. Claresholm H.S. 2, Okotoks vs. High River.

District No. 3, including Olds high school, Olds Agricultural high school, Didsbury and Red Deer. Friday, December 11, 1914.—1, Didsbury vs. Red Deer; 2, Olds A.H.S. vs. Olds H.S.

District No. 4, including Lacombe, Ponoka, Stettler and Camrose. Friday, December 11, 1914.—1, Lacombe vs. Ponoka; 2, Stettler vs. Camrose.

District No. 5, including Wainwright, Viking, Strathcona high school and Edmonton separate schools. Friday, December 11, 1914.—1, Wainwright vs. Viking; 2, Strathcona H.S. vs. Edmonton separate school.

District No. 6, including Vermilion high school, Vegreville, Vermilion Agricultural high school and Vermilion high school. Friday, January 15, 1915.—1, Victoria H.S. vs. Vegreville; 2, Vermilion H.S. vs. Vermilion A. H. S.

Semi-Finals Friday, February 5, 1915.—1, winner of District No. 1, vs. winner of District No. 2.

2, Winner of District No. 3 vs. winner of District No. 4.

3, Winner of District No. 5 vs. winner of District No. 6.

Final Friday, February 26, 1915.—4, winner of 1 vs. winner of 2.

November 10 and 11, 1914. Donnybrook Dale is the leading contributor to the November issue of Rod and Gun, issued by W. J. Taylor, Limited, Woodstock, Ont., writing on the subject "Trapping in Ontario 1912-14." In "Wanderings in the Winter" W. J. Taylor describes vividly the joys of the winter camping trip. "Bear Trapping and Pack Carrying in B.C." tells of a hunter who trapped a husky bear weighing some one hundred and sixty pounds and then carried him over a snow-covered trail. "Hill and Me" is a well written account of a canoe trip in the northern wilderness. The remainder of the magazine is replete with interesting articles and the various departments are well maintained.

NO HOCKEY OR SKATING AT ARENA THIS WINTER: ANOTHER CRUEL BLOW.

Still another disastrous result of the war in Europe—in all probability—will be felt in Edmonton the coming winter, unless the war should cease very soon. The arena rink will not be available for skating and skating purposes, the city council last night deciding that the arena should have first call on the building, which is also very suitable for training the soldiers next year the arena was the popular place to go for skating and hockey, and Commissioner Harrison estimates that 40,000 people visited it, which means in street car fares to the city about \$4,000, and the city received \$1,000 as rent. This may mean that hockey will inaugurate in Edmonton for a season or so more.

ZIMMERMAN BEST IN PARENT LEAGUE STATES STALLINGS

Would be Every Whitt as Good as Ty Cobb with Proper Temperament.

There is one man in baseball who, with the proper temperament, would be every whit as great a ball player as Ty Cobb, according to Stallings. No, he isn't a member of the Braves. He is a member of the St. Louis Browns. "If Heinie could curb himself," says the Braves leader, "he would be one of the greatest ballplayers that ever lived. He is 100 per cent greater than most people give him credit for being. He is the greatest ball player in the National League."

"The trouble is that Heinie gets worked up to such a pitch that he loses a big part of his value. An opposing team can put him up in the clouds in two jumps. But so far as actual merit is concerned I consider him by all odds the best ball player in the National League."

"In one game," continued Stallings, "I saw Heinie make a play that no one else in the game could have made. He was up at bat with James pitching. James whipped over a fast one that started for Heinie's head and then suddenly broke over the plate. Zimmerman started to dodge, and then, all out of position, with the ball on top of him, swung so quickly and with such a keen eye that he tripped to right field. It was a remarkable thing all the way through. It showed how he followed the ball and what wonderful quickness he possessed with his hands."

Victorias Reorganized. The Calgary Victorias, winners of the intermediate provincial hockey championship in 1914, have reorganized for the coming season. It was decided to play intermediate hockey again this year unless a senior city league should be organized, when the Vics will be willing to enter. The Vics have nearly all of their last year's championship team intact and expect to repeat their former success.

To Fight Eddie Moran. Charlie McCarthy, formerly a goal tender in the Alberta A.H.A., but now in Montreal, where he has signed to guard the nets with the Wanderers in the N.H.A. this winter, has agreed to appear in another boxing bout on Friday night. He meets a tough boy, Eddie Moran from New York.

A man may owe a great deal to his ancestors but the only way he can ever repay it is by being a credit to them.

CALGARY EXPECTS TO WIN FOOTBALL GAME ON SATURDAY

Team Gets Down to Real Workouts After Desultory Practice for Month.

CLUBS FAIL TO AGREE ON OFFICIALS SO FAR

Calgary, Nov. 4.—Now that the dates have been definitely named by President Robt. Pearson for the provincial rugby championship, the Tigers have been practicing in a desultory manner for the past month, have got down to real hard work, and Coach Gleason has ordered daily workouts. Hickey, one of the wing men, who once played with the Ottawa Rough Riders, has been elected captain of the team. Gleason expects to present a perfectly conditioned team at Edmonton on Saturday as from reports arriving from the north the University of Alberta squad is in grand physical condition and able to go the entire 60 minutes at a fast clip. A notable absentee from the Tiger line-up will be Bill Dobbie, who went into retirement this season, and will not listen to persuasion.

The usual 1125 guarantees will hold good in the inter-city games but to date it has been impossible to agree on officials. Prof. Muir Edwards of the University of Alberta suggested that in order to keep down expenses, two Edmonton officials act in the first game, while the Tigers have the privilege of nominating two Calgary men for the return game on November 14. This did not meet with the approval of Captain Hickey, and after some dickering Mr. Pearson told the teams to get together as soon as possible and if no agreement could be reached that he would appoint the officials himself.

GREEDY MAKES 300 TO 128 FOR DR. YOUNG IN SECOND KIRKLAND GAME

William Greedy, in the tournament last night at the Empire billiard hall, won the second game of the Kirkland challenge cup by a score of 260 to 128, over Dr. Young, in English billiards. On last night's form Greedy should come close to having his name inscribed on the silverware as the first holder. He kept up a continual count and some of his losing hazards seemed impossible. He scored ten after runs and nothing was too hard for him to score off. Dr. Young was never in the hunt, the balls not breaking for him. The game tonight will bring together Gabe and Kidwell, and should be closely contested.

Last night's score: Greedy, 300; high runs, 22. Young, 128; high runs, 11. Referee, Mr. Galey.

McNamara Beats Cliff. W. J. McNamara defeated Cliff in the straight rail tournament at the Empire last night, the score being 150 to 71. Mr. McNamara made many hand and pretty runs, showing great command of the ivory. The south side champion was never in the running; his opponent drawing away from him every inning. Tonight's game in the straight rail tournament will be between Archie Kay and Mr. McNamara.

Last night's score: McNamara, 150; high runs, 12. 14. Cliff, 71; high runs, 8. 11. Referee, Mr. Kellie.

By Royal Warrant Of Appointment

INTERESTING GAME AT KING EDWARD PARLORS

An interesting game was played last night in the English billiard tournament now in progress at the King Edward parlors, Kay defeating Kidwell by 250 to 186. While the game was rather slow both contestants pulled off some good shots and there were several high runs. Kay's best effort was 27 and Kidwell's ran 26. The game today brings together Sullivan and Evans.

Last night's score: Kay, 250; high run, 27; Kidwell, 186; high run, 26. Referee, Mr. Inwood.

VARSITY TRAINS HARD FOR FINAL WITH THE TIGERS

The University of Alberta rugby team has not by any means let up in practice, after winning the city championship, but is practicing faithfully for the final games with the Calgary Tigers for the provincial title.

On Monday the squad took a rest after the game Saturday, but Tuesday night they were again at it, every member of the team turning out, including McDonald, the fast right end, who did not play last Saturday, because of an injured knee.

It is expected that the varsity team will be in superb condition at the end of the week to meet and beat Calgary in the first game of the finals, which will start at Diamond Park at 2 p.m.

is all MERIT—perfectly blended and thoroughly aged.

D. O. ROBLIN, Toronto Sole Canadian Agent

\$1,400,000,000

That is the value of Canada's manufactures for one year—in money. But what of their value measured in the comfort, the happiness and the well-being of the whole country?

To produce them gives employment to over six hundred thousand workpeople, whose total wages amount to \$288,000,000 each year.

These workers, with their families and those who benefit by their purchasing power, number nearly one-third the population of Canada—supported by Canadian manufactures.

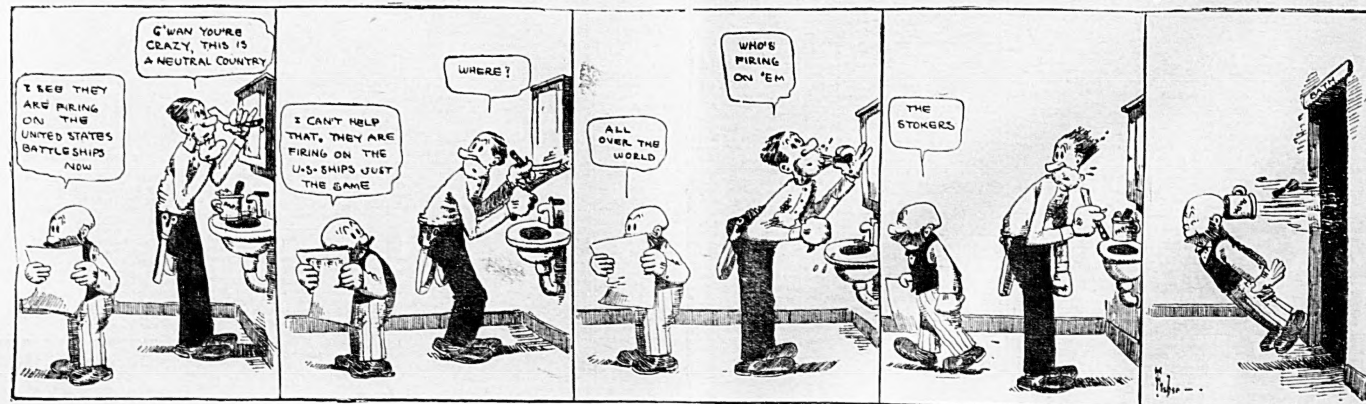

How readily it is apparent that the prosperity and happiness of every Canadian—of yourself—depend on the continuous employment of these people—on the consumption of goods "Made in Canada."

Canadian factories support one-third of our population. Are you helping to support Canadian factories?

Employ Our Own Dollars to Employ Our Own Workmen.

Commissioner Harrison Says Doubtful if Horse Show Building Available.

Walter (Shorty) Campbell, appearing on behalf of the hockey interests of the city and province, and his own, addressed the city council Tuesday night. The annual meeting of the hockey delegates to be held in the city on Saturday at 2 o'clock and Walter asked the city fathers about the probability of securing the horse show building for hockey purposes for the winter.

At the meeting of the council the week before it had been decided to allow the militia to use the building, but the requirements are as yet not fully known the matter is in doubt. However, if the statement of Commissioner Harrison at last night's meeting, are correct, the chances of securing the building for hockey purposes are not good. Mr. Harrison said: "The military officials visiting us on Saturday night, and now in the city, are not in Ottawa regarding the matter. I hardly think it likely the hockey men can have that building."

Mr. Campbell stated that during the winter months of last year, the revenue to the street railway from the people attending the rink was \$4,000 and the city received for rental of the building \$1,000, making an all of \$5,000 for the three months of cold weather when the building can be used for little else. The rink is a great boon to the street railway, the department. It is not, however, impossible to heat the horse show in the winter for the use of the militia. So far, no more than 20 men at any one time attended the drills of the militia in the building. The matter still rests on it is hoped that some arrangement will be given to Mr. Campbell before the hockey meeting on Saturday so that the matter may be put before the delegates of the province. In case the horse show building is not available, it will become necessary to either erect a new shed for a rink in some central portion of the city as suggested last night, or else use the smaller rink on the south side, which is altogether too small to produce a hockey team of sufficient class to compete with the strong teams in Regina, Calgary and

EDMONTON IN BRIEF

Elective commission government was the subject of a little informal debate last evening at the Y.M.C.A. when brief discussion was given to some of the business plan of municipal administration which is demanding so much favorable attention at this time throughout municipalities on the continent. G. C. Fiddler, solicitor, presiding in favor of the negative, and supplemented the negative arguments by declaring lack of faith in the initiative, or the recall, or commission government as desirable or satisfactory remedies for municipal misgovernment is to be held at the Y.M.C.A. at a later date.

Rev. Geo. G. Webster of the Eastwood Methodist church, has returned to the city from a six week visit in Ontario, attending the general Methodist conference at Ottawa, and visiting his home in Toronto. His stay at the latter place was prolonged on account of the very serious illness of his mother, Mrs. Hector, of the latter city.

LEGAL LIGHTS DAY

Heated Debate in Council Over Date Set by Mr. Cox for Bye-election.

CLARKE CALLS IT ROTTEN; KINNEY SAYS IS FRAMEUP

Matter Rests as at First and Not Settled—Is Now up to City Clerk.

In the opinion of the Acting City Solicitor, Golding, and also in the opinion of C. F. Newell, K.C., and Frank Fox, K.C., the action of the City Clerk in naming a date for a bye-election to fill the vacancies caused by the disqualification of W. J. McNamara and James East, was not proper and therefore, in their opinion, the proceedings of the city clerk should be cancelled. These legal lights hold that the returning officer has no mandate to contravene the action of the city clerk on an election is necessary. His mandate should come from the city council, the legislative body.

The subject of the bye-election, the date as set by the city clerk and the advice received from the legal authorities on the subject, were the cause of many heated arguments and fiery words from Alderman Clarke and Alderman Joseph over the whole thing was a frameup to keep W. J. McNamara and James East from holding a bye-election immediately. Mr. Cox stated that before taking action, he had asked the advice of Acting City Solicitor Golding for his opinion. Mr. Golding had gone to Mr. Newell for his advice which had given to him the same answer as that of Mr. Newell, Mayor Smith had the city clerk read to council, and then started the fun.

"It's the rottenest piece of jobbery that's ever been put over by a K.C. in this city," is the way Alderman Clarke stated the document. "It's rotten, it's rotten, it's rotten," he continued. Then he easily moved on, keeping East out of his seat and keeping Smith in the mayor's chair.

Alderman Clarke's Night. Campbell who had been very quiet all evening, rose and challenged Alderman Clarke as to Mr. Newell's action and told Mr. Clarke in no many words that he would not stand for the insults being handed out by the alderman. The cooled Alderman Joseph off for about two minutes when he was on his feet again. In fact Alderman Clarke had the first and last words in council last night and over 30 per cent of all other words spoken during the evening. It was his night.

A. Macleod Sinclair appeared before council, representing the Citizens' Association, to protest because the city clerk did "wrongly take action" in connection with the proposed bye-election and claiming that the action of the city clerk was not authorized by the city council.

"You've made a mess and now you're trying to clean it up," said Alderman Clarke to Mr. Sinclair when he opened his remarks.

Mr. Sinclair then told what his two objections were. First, the city council should be given an opportunity of setting the date and not the city clerk, secondly, the city clerk should have been allowed after the time of the might be made by either of the disqualification of McNamara and James East, and that if the election were held without the city clerk's sanction, it would be illegal.

"I was advised that the election is gone on with it may be illegal and may be proceeded against," said Mr. Sinclair in conclusion. But this was another Mr. Alderman Clarke, who wilyly stated, "You're coming here with the freshest piece of business ever heard of."

Alderman Kinney was also inclined to class this action as a frameup and believed something was being "put through." He, with Alderman Clarke, declared they had been a downright conspiracy to put McNamara and East on the shelf.

City Clerk Cox was given an opportunity to explain his reasons for having set the bye-election date and in so doing stated he had received little enlightenment from the city legal advisor, Mr. Golding. This fact apparently got on the nerves of the latter who rolled the city clerk directly as council adjourned, accused him of not sticking to facts and called him a blabby blabber.

Calder Makes Motion. Alderman Calder made a motion that the bye-election be held on December 14, the date of the general municipal election and that the notices already sent out be cancelled. The motion was carried.

Accordingly, Alderman Clarke moved that all letters taken by the city clerk be confirmed. Neither of the above motions were put to a vote as before the city clerk had finished the reasons for his actions, the hour of 11 o'clock had been passed and as a motion to extend the time was defeated, the matter rested with little headway gained.

After the council meeting, Mr. Cox still persisted in believing his interpretation of the city clerk was correct and that his action had been perfectly legal. This in spite of the legal advice of the city clerk, who had said before the city clerk had finished the reasons for his actions, the hour of 11 o'clock had been passed and as a motion to extend the time was defeated, the matter rested with little headway gained.

Children's Aluminum Tea Sets at 50c

SUBWAY DAMAGES AGAIN IN COUNCIL

Alderman Clarke Terms Efforts of Layers as Down-right Rascally.

The matter of subway damages was again the cause of debate at the Tuesday meeting of the council. The committee appointed to look into the matter of settlement with the property owners at the subway had their report read but this was objected to by members of the council. Alderman May asked the adoption of the report as read and Alderman Douglas was also in favor.

The report recommended that \$40,000 be paid the McDougall-Second company for their lot at the corner of Tenth street and Jasper avenue. In strong terms of the council, Alderman May asked the adoption of the report as read and Alderman Douglas was also in favor.

Moose Hunting Season 1914

DURLINGVILLE, ALTA.

is the best situated place in the Province of Alberta.

Hunters will find there the well assorted general store of Dubard & McLeod, a good stopping place, pool room, livery barn and a good guide.

strong enough language for Alderman Clarke, who termed the deal as downright rascally.

There were other claims mentioned on other lots but the whole matter was laid over till next meeting. Commissioner Blooth is to resign his office on the 15th inst. The matter will be given immediate attention.
